Virtual DJ LE Update Guide

Before start

How to download "VIRTUAL DJ LE" is described in this Guide.

- Follow the instructions below before starting the update of Virtual DJ PRO.
- Internet connection is required to download the software. Be sure to log in with the computer administrator's account to install "VIRTUAL DJ LE".
- When a serial number is asked after the update, enter the serial number of an applicable product to launch it.
- If you should have any questions, please contact the Pioneer Customer Support Center
- Please refer to the following URL of Atomix Productions for the Supported Operating Systems.
  http://www.virtualdj.com/products/virtualdj/index.html

Note:
・"VIRTUAL DJ LE" is a product of Atomix Productions. In principle, Pioneer is not in the position of answering any inquiries on the usage of the software itself. Please refer the manual of "VIRTUAL DJ LE".
・Some steps in this Guide include deleting files and folders in your computer. If such files or folders are used also for other applications, those applications might not work properly. If a wrong file or folder is deleted, the computer itself might not function normally. When deleting a file or a folder, be sure to make a backup copy of the file or the folder before deleting it to go through the steps below.
・The serial number that is placed on the case of VIRTUAL DJ LE software CD-ROM of DDJ-ERGO is required when downloading the update file. The serial number will not be reissued.

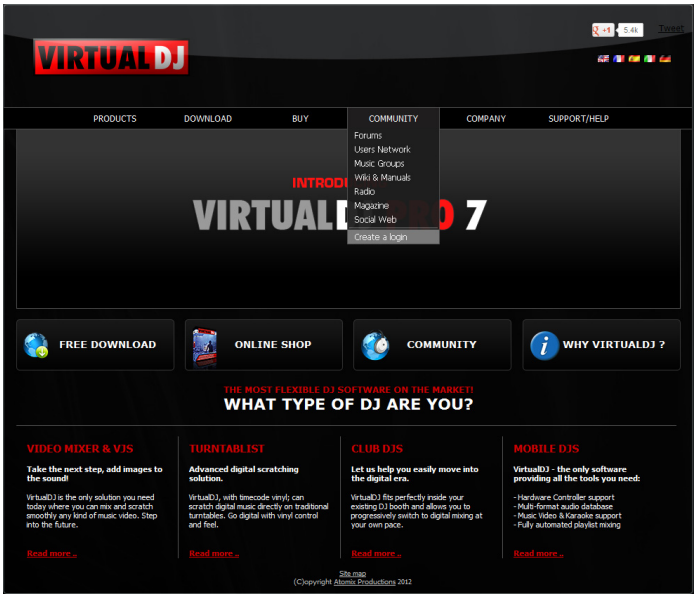
Disclaimer:
Please note that Pioneer will accept no responsibility whatsoever for loss or damage to the customer's computer caused by the operations based on the information in this Guide. It is advised to use this information at your own risk and on your own responsibility.

Creating a Virtual DJ user account

If you already have a user account of Virtual DJ, skip this section and proceed to the next section.

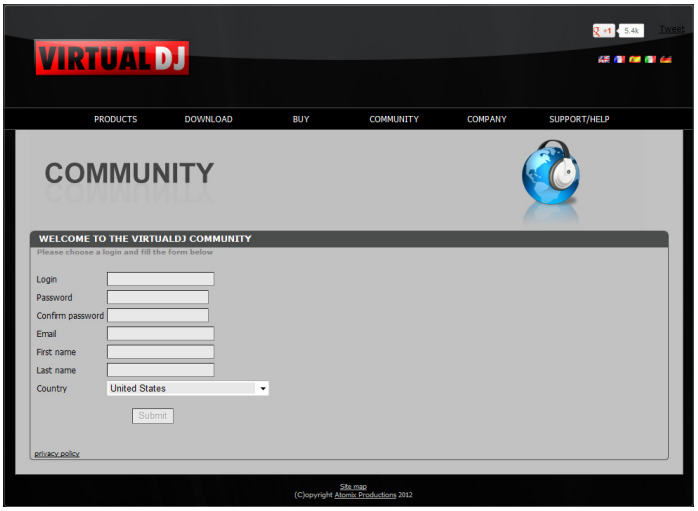
1. Access the website of Atomix Productions.
http://www.virtualdj.com/

2. Select "Create a login" from COMMUNITY.



3. Enter an arbitrary login name and password, and your email address, first name, last name and country. Then, press the Submit button below.

— Be careful not to forget the e-mail address and password specified when you performed user registration. They will be required for updating the software.
— The personal information input when registering a new user account may be collected, processed and used based on the privacy policy on the Atomix Productions website.



4. An email with the title of "New user activation for Virtual-DJ.com" will be sent to the email address you registered. Open this email and click the URL starting from http://.

5. When "Welcome *<login name>* VirtualDJ Community!" is displayed, your account is successfully activated.

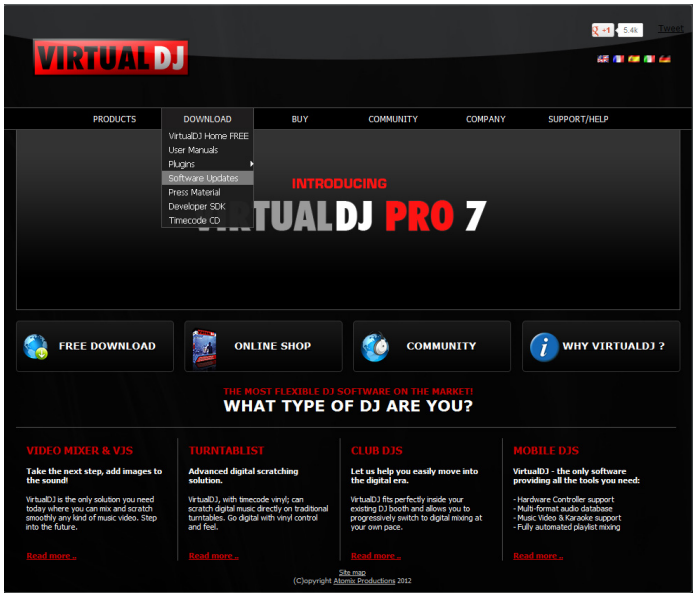
WELCOME TO THE VIRTUALDJ COMMUNITY
Welcome VirtualDJ community!
You are now a member of the most exciting digital DJ community in the world.
We hope you are going to spend a lot of time here.
If you want, you can start by checking the forums (click here). You will see that they are very active.
Or you can browse all the new interfaces and plugins the community has developed for you (click here).
And maybe one day contribute too, if you have what it takes.
But first, you should probably start by filling more informations about yourself on your account page (click here).
If you have a license for a VirtualDJ-based product, you will be able to register it there.

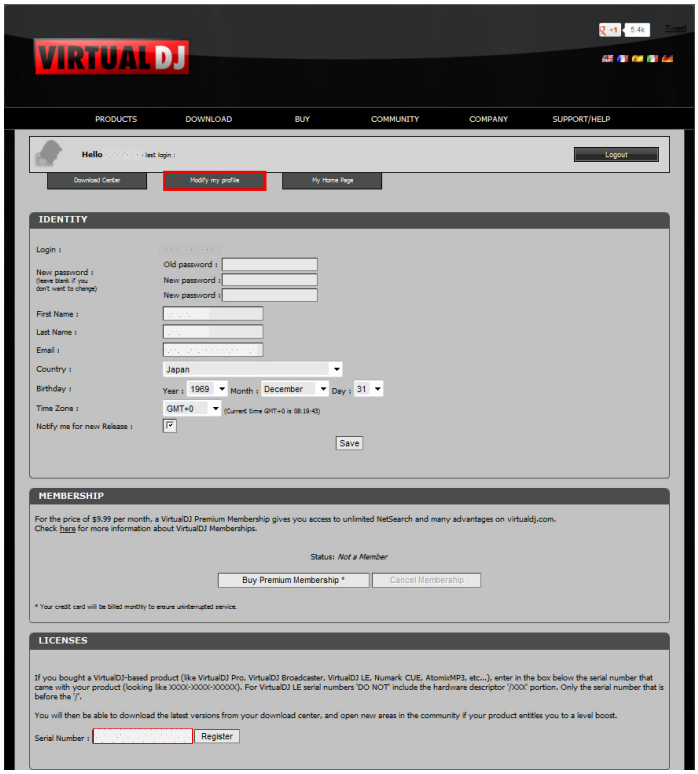
Downloading the VIRTUAL DJ LE update file

1. Access the website of Atomix Productions.
http://www.virtualdj.com/

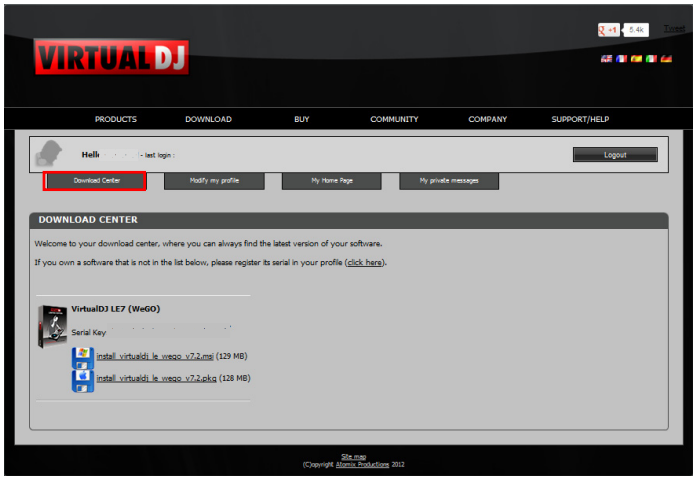
2. Select "Software Updates" from DOWNLOAD.



3. Register the serial number
Select "Modify my profile" and enter the serial number that is placed on the case of VIRTUAL DJ LE software CD-ROM of DDJ-ERGO in the "LICENSES" box and press "Register".
The serial number will not be reissued.
If you have already registered your serial key, skip this step and proceed to the next step.



4. Select "Download Center" to download Virtual DJ LE.
You can find the latest version of "VIRTUAL DJ LE". Click the Windows or Mac icon to download the file.



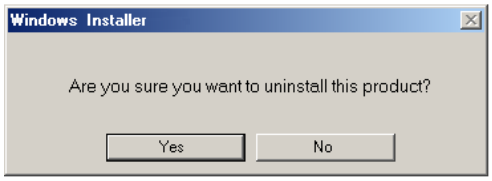
Installation Procedure

Notice:
- Do not connect this unit to the computer until installation is completed.
- If any other programs are running on your computer, quit them.
- Ensure that the user account name is in 1-byte characters. Otherwise if you use 2-byte characters, some issues such as unable to save the settings and unable to record may occur.

For Windows Users

When updating VIRTUAL DJ LE on Windows PC, the current VIRTUAL DJ LE is required to be uninstalled. Follow the instructions below to uninstall it.
After uninstalling the current VIRTUAL DJ LE, please see the [Installing the Software] section in the Operating Instructions to install the downloaded VIRTUAL DJ LE.
After installing the software, please follow the [Starting the system] section of the Operating Instructions to complete the [Sound Setup] of VIRTUAL DJ LE.

1. From the Windows [Start] menu, click the [All Programs]>[VirtualDJ]>[Uninstall VirtualDJ LE (XDJ-R1)] icon.
– For Windows 8, click the [Uninstall VirtualDJ LE] tile on the Start screen.
Click "Yes" when Windows Installer dialogue appears.



The VIRTUAL DJ LE uninstaller is launched.
The following message appears. If you want to retain the settings information, click "No" and if you want to remove it click "Yes".

This completes the uninstallation procedure.

==========

For Mac OS X Users

When installing Virtual DJ LE on Mac, the current Virtual DJ LE is required to be uninstalled. Follow the instructions below from Step 1 to uninstall it.
After uninstalling the current VIRTUAL DJ LE, please see the [Installing the Software] section in the Operating Instructions to install the downloaded VIRTUAL DJ LE.
After installing the software, please follow the [Starting the system] section of the Operating Instructions to complete the [Sound Setup] of VIRTUAL DJ LE.

1. Open [Finder] and delete the following folders and files to [Trash].

・**Virtual DJ** folder in [Document] from [username]
・**Virtual DJ LE** icon in [Application] folder.
・The file in [Preferences] from [User name] > [Library]:
com.atomixproductions.virtualdj.plist
— If the [Library] folder is hidden, select [username] and select [Go] while pressing the [option] key on the key board.

2. Reboot your computer
